Measuring Sheet For Riding Boots	
Boot Type:	
Leather Finish:	Colour: Black / Brown
Outsole: Leather / Rubber	
Nickname or initials to be printed on boots:	
Print Method: (Silkscreen / Branded)	
Special Request:	

Shoe Size

UK/US		Please follow the instructions below to fill this table accurately with the measurements of your feet.	
EU		RIGHT	LEFT
JP		RIGHT	LEFT
Balls of the Feet	J-K		
Instep	G-H		
Heel	E-F		
Upper Calf	N-O		
Calf	C-D		
Calf-length	B-C		
Ankle	P-Q		
Leg-length	B-A		

The outlines of the stockings foot should be drawn with a vertically held pencil on the two back pages provided.

The measurements should be taken slightly tensed over the stockings or in the case of riding boots, over the riding-breeches.

The measurement of the leg length should be measured in a sitting position on the outside of the leg (from the edge of the heel 'B' to the kneel bone 'A'). The leg length should not be measured too low since the boots will contract over a period of time.

Please trace your foot clearly and accurately to help us build your perfect pair of boots

Place **Left Heel** here to begin trace
